13-18 Years Old

Co-Educational

## Overview

Lancing College is a co-educational school set in 500 acres of beautiful South Downs countryside in South East England with a well earned reputation for academic, sporting and musical excellence.

The school buildings are magnificent architectural specimens, the most exquisite of them is the Chapel which stands proudly a 100 feet above the hillside representing both the values Lancing College promotes and the focus for much of the life at the boarding school.

Teaching staff are both dedicated and well-qualified, supported by facilities that are nothing short of excellent. The results of this investment has meant that Lancing College is justifiably proud of its public exam results which are very strong, the last four years has seen the average percentage of A-B grades at A Level has been over 85%. Almost all leavers from Lancing College will progress to further education, with many top universities amongst the destinations.

All pupils are strongly encouraged to make the most of the many and varied opportunities Lancing College provides for sporting and cultural enrichment.

Lancing College provides excellent pastoral care, led by an experienced team of Housemasters and House Mistresses achieving an overall quality rating of 'Outstanding' in the recent Ofsted Report. Lancing College is a warm, happy, busy, tolerant community dedicated to the nurturing of independent minds and well-rounded, confident individuals.
